

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

1. (Currently Amended) A medical instrument for transdermally administering a medicine comprising a bag ~~made of an ion-exchange membrane,~~ and an ionic medicine or an ionic medicine-containing substance sealed in the bag, said bag comprising an anion exchange membrane and a cation exchange membrane which are melt-adhered to each other along the peripheral edges thereof.

2. (Cancelled).

3. (Cancelled).

4. (Original) A medical instrument for transdermally administering a medicine according to claim 1, wherein the ionic medicine-containing substance is a sheet or a film impregnated with a solution of an ionic medicine.

5. (Original) A medical instrument for transdermally administering a medicine according to claim 1, which is used for the iontophoresis.

6. (Original) A portable iontophoresis device comprising a medical instrument for transdermally administering a medicine of claim 1, a working electrode connected to the medical instrument, and a counter electrode electrically connected to the working electrode through a cell.

7. (Original) A portable iontophoresis device according to claim 6, wherein the working electrode and the counter electrode are mounted on a flexible armoring member.

8. (Original) A portable iontophoresis device according to claim 7, wherein the working electrode and the medical instrument for transdermally administering the medicine are connected to each other through an electrolyte layer.

9. (Original) A portable iontophoresis device according to claim 7, wherein the counter electrode is provided with an electrolyte layer in the form of a paste or a gel, and the electrolyte layer and the medical instrument for transdermally administering the medicine are used being in contact with the surface of the living body.
